To fully exploit the potential of Distribute you can work with us to add customised Apps dedicated to performing functions specific to how you and your distributors do business. This can be anything from:

- Online ordering that integrates with your internal systems.

- Calculator tools. For instance, a calculator to establish what product fits given applications; energy saving calculators; whatever you need.

- Report generators.

- Aftermarket tools like warranty / service requests that feed directly into internal systems.

- Training tools and course booking areas.

- Stock and order status tools.

These are just a few examples of the many ways in which Distribute can be leveraged to empower your distributor network to achieve greater sales while reducing your time costs.

Distribute is designed especially for manufacturers. It works on any device that has an internet connection and browser, providing distributors maximum utility.

POWER UP
YOUR DISTRIBUTOR SALES

Exceptional value with huge impact

Starts at just £75/month with a small setup fee. You don't need to risk a lot of capital to try Distribute.

Making it easy

Our setup of Distribute is quick and easy for you!

It's visually intuitive and easy-to-use for your distributors!

Quality control for your brand

No more excuses for distributors to use unsanctioned branding or literature.

Flexible permission control

Only allow users to see and use what you want them to. Our easy-to-use permission management system works at both App and document level.

Simple Content Management System (CMS)

Manage your downloads and update your Apps from our easy-to-use admin area. This can be extended to manage your primary website content if required later.

Option to integrate with your systems

Our tech allows us to integrate with most installed systems, opening a world of possibilities for sharing information and data with your distributors.

Support to on-board your distributors

Our experience & expertise in communicating to distributors around the world, on behalf of manufacturers, is available to help ensure the successful launch of Distribute.

Zero impact on current websites

Distribute is an independently hosted system that can sit alongside your current website(s) requiring no disruption to what exists already.

WHO WE ARE

Distribute was formed in 2023 by Stefan Potter and Steve Adams, but it operates as a sister company to Pepperneck, a marketing agency that boasts over 25 years of marketing experience and expertise working with manufacturers.

Our unique company partnership delivers a tool to help you streamline your business with distributors, whilst providing an option to enhance it with marketing, design and web development services.

Our team of marketing experts, designers, PR managers and web developers are eager to take on any new challenges you may have for them. We look forward to hearing from you!
